

GPT 4 — Email Campaign Builder

Step 1 — Import the card (first thing GPT 4 does)

GPT asks: Paste your Updated Offer Card from GPT 3.

User pastes (mock): *(from GPT 3 output)*

Step 2 — Confirm the selected offer name

GPT asks: What affiliate offer name did you select?

User answers: OneDoc AI

Step 3 — Request the sales copy

GPT asks: Paste the affiliate offer sales copy here (full text).

Mock note: Sales copy not provided in this mock, so **bonuses cannot be listed**.

OUTPUT (what GPT 4 produces)

Email 1

- **Subject:** Stop Chasing “Free Leads” Without A Real System
- **Preview:** If your leads feel random, it’s not your effort—it’s your capture process.

Body:

Hi there, quick question for you.

Are you posting content hoping leads show up, but nothing feels consistent or predictable?

That’s exactly why **OneDoc AI** exists as the simple next step.

It’s built to help you turn one clear idea into an opt-in asset faster.

Right now, the real problem isn’t traffic.

The problem is having nothing strong enough for people to exchange their email for.

Bonuses: Not listed in the provided sales copy.

Would you like a faster way to create something people actually want to download?

If yes, check out **OneDoc AI** and see if it fits your “free leads” strategy.

Talk soon,

— Your Name

P.S. If you want free leads, you need a “yes-worthy” opt-in first.

Email 2

- **Subject:** The #1 Reason “Free Leads” Don’t Convert
- **Preview:** Attention is cheap. Emails are earned with something valuable and specific.

Body:

Hey, can I ask you something honestly?

When someone watches your content, do they know exactly what to do next?

OneDoc AI is designed to help you build that “next step” in minutes.

It helps you create a lead magnet people can actually say yes to.

If your call-to-action is vague, leads won't move.

If your free offer is generic, opt-ins will stay painfully low.

Try this simple test today:

- Is your free offer **specific**?
- Does it solve **one urgent problem**?
- Can someone use it in **ten minutes**?

Bonuses: Not listed in the provided sales copy.

Would it help if you could produce clearer opt-in assets without starting from scratch?

Take a look at **OneDoc AI** and decide if it's your shortcut this week.

Best,

— Your Name

P.S. The easier the free win feels, the faster people hand over their email.

Email 3

- **Subject:** Free Leads Die In The Follow-Up Gap
- **Preview:** Most “lost leads” are simply unfollowed leads.

Body:

Hi, quick question before you scroll.

Have you ever gotten a lead... then waited too long to follow up?

That gap is where free leads disappear.

OneDoc AI can support a cleaner system by improving what you capture upfront.

When your opt-in is sharper, follow-up becomes simpler.

You can send one focused sequence instead of random messages that feel awkward.

Here's what usually breaks people:

- No clear lead magnet promise
- No easy next step after opt-in
- No simple email path that keeps momentum

Bonuses: Not listed in the provided sales copy.

If you want free leads to turn into real conversations, start with a stronger opt-in asset. Check out **OneDoc AI** and see how it supports that foundation.

Cheers,

— Your Name

P.S. Consistent follow-up only works when the original opt-in promise is crystal clear.

Email 4

- **Subject:** Too Busy For Lead Magnets? Read This.
- **Preview:** You don't need more time. You need a faster creation workflow.

Body:

Hey, can I guess what's happening?

You know you need a lead magnet, but building one feels like a full weekend.

That's why **OneDoc AI** is positioned as a speed tool.

It's meant to help you create an opt-in asset without hours of blank-page struggle.

Most people don't fail because they lack ideas.

They fail because execution takes too long, so they never publish anything.

Try this approach for the next seven days:

- Publish one short video daily
- Offer one specific free resource
- Send every viewer to one simple opt-in

Bonuses: Not listed in the provided sales copy.

Would it be useful if the "free resource" part stopped feeling like heavy work?

If yes, review **OneDoc AI** and see if it matches your workflow.

Regards,

— Your Name

P.S. Speed wins in organic marketing, because consistency beats perfection every single time.

Email 5

- **Subject:** Your Lead Magnet Might Be Too Broad
- **Preview:** Narrow offers feel more valuable. Broad offers feel like noise.

Body:

Hi, I have a question that might sting a little.

Is your free offer trying to solve ten problems instead of one problem?

That's a common reason free leads stay "curious" but never opt in.

OneDoc AI is useful when you want to produce tighter, clearer opt-in assets.

A strong free lead magnet is not a course.

It's a quick win that someone can use today, without confusion.

Here are five narrow lead magnet ideas that convert well:

- "10 DM Scripts To Start Conversations"
- "7-Day Free Leads Content Plan"
- "Follow-Up Template Pack"
- "Comment-to-DM Reply Scripts"
- "Quick Lead Tracker Sheet"

Bonuses: Not listed in the provided sales copy.

Which one would your audience want *right now* the most?

If you want help creating that faster, look at **OneDoc AI** today.

All the best,

— Your Name

P.S. Narrower promise = higher opt-in rate, because people instantly understand the value.

Email 6 (LAST CALL)

- **Subject:** LAST CALL: Don't Let Another Week Pass With Random Leads
- **Preview:** If you want free leads, you need one asset and one plan—starting now.

Body:

Hey, last quick question for you.

Do you want this week to be another "try posting and hope" kind of week?

If not, **OneDoc AI** is the solution I'd look at first.

It's positioned to help you build an opt-in asset faster and publish consistently.

Here's what it solves, in plain terms:

- You stop guessing what to offer people
- You create a clear reason to collect emails
- You build a repeatable path from content to leads

Bonuses: Not listed in the provided sales copy.

Do you want to keep chasing attention, or finally capture leads on purpose?
If you're ready, check out **OneDoc AI** now and set up your next free offer.

Thanks,
— Your Name

P.S. The fastest path to free leads is one strong opt-in, promoted daily, with simple follow-up.

EMAIL PACK CARD (GPT 4 → GPT 5)

EMAIL PACK CARD (GPT 4 → GPT 5)

- **Niche:** How to get free leads
- **Best Trend:** AI-assisted lead capture + follow-up foundation via strong lead magnets
